

X-Run Crane

Off and running ... The future of the running fibre rope: Same strength and elongation as wire rope with the highest service life in dynamic use under load.

Performance

Strength-optimized construction with minimal stretch

Weight

Extremely light for maximum load capacity and best handling

Service life

Optimized for maximum service life in ongoing use

Technical data

Elongation at 10% of the breaking load: 0.60 %

Depending on their requirements.

Gleistein

More than Ropes.
