

Mega Cover System 100%

Dyneema[®] Superyacht

Targeted protection for the sections of rope most stressed.

Durability

Extremely abrasion-resistant under the toughest conditions.

Super-thin

Adds minimal bulk.

For experts

Can be processed perfectly – for individualised sheets and halyards.

When it comes down to protecting optimised low-weight ropes or sections thereof subjected to extreme stresses, the MegaCoverSystem comes into play. High-quality covers are applied to the relevant segments to enable targeted enhancement of the specifications in the applicable areas, thereby also increasing the lifetime of the rope.

Diameter

6 - 8 mm end diameter - 24 - 28 mm end diameter

Colors

Gleistein

More than Ropes.
