
GeoTwist® Polyester

Watersports Cruising

Extremely durable, flexible and economic mooring line

Indestructible

Extremely robust and durable, without hardening, best UV resistance.

Quality pays dividends

Carefully constructed, high quality line at a low price.

Universal

Excellent mooring line, also suitable as anchor warp due to its sag line in water.

Nominal diameter

8.00 - 24.00 mm

Construction

Colors

Gleistein

More than Ropes.

Technical data

Elongation at 10% of the breaking load: 4.00 %

Nominal diameter [mm]	Weight [kg/100 m]	Spliced break load [kN]	Linear break load [kN]
8.00	4.85	11.50	12.78
10.00	7.58	18.50	20.56
12.00	10.90	30.00	33.33
14.00	14.90	39.00	43.33
16.00	19.40	50.00	55.56
18.00	24.60	64.00	71.11
20.00	30.30	84.00	93.33
22.00	36.70	98.00	108.89
24.00	43.70	115.00	127.78
