AT Twin

Watersports Performance

The ultimate furler cable: Brings the turn reliably to the tip of the sail, is extremely resilient.

Special AntiTorsion cover

Reliable transmission of forces in Gennaker, Staysail and Code0 Furling systems.

Performance core

Creep-free Vectran® for highest strength wutg lowest elongation.

Flexible and light

All the benefits of a fibre rope while handling and storing.

Nominal diameter

10.00 - 16.00 mm

Construction

Colors

Gleistein

More than Ropes.

Technical data

Elongation at 10% of the breaking load: 0.30 %

Nominal diameter [mm]	Weight [kg/100 m]	Spliced break load [kN]	Linear break load [kN]
10.00	9.70	50.00	55.56
12.00	14.00	72.73	80.81
14.00	16.00	100.00	111.11
16.00	19.00	119.75	133.06
