$DynaOne^{^{\tiny{\textbf{®}}}}\ HS\ MAX\ {}_{\tiny{\text{Watersports Performance}}}$

Finally: Dyneema® power now also for static deployment. For extremely light shrouds and stays.

Creep-free

With Dyneema® Max Technology, unrestricted suitability for static loads.

High performance

Heat set to provide superior strength and elongation properties.

Extremely light

Saves weight where it matters most: at the top of the mast.

Diameter

5 mm - 10 mm Ø

Colors

Technical data

Elongation at 10% of the breaking load: 0.30 %

Ø [mm]	Weight [kg/100 m]
5 mm Ø	1.60
6 mm Ø	2.10
8 mm Ø	4.10
10 mm Ø	5.50
