FurlerTwin

Watersports Performance

Ready-to-use reefing line with minimised elongation, high strength, and best grip in cleats.

Strength made to measure

One half of the rope mechanically tapered for adjusted strength and to save space in reefing systems.

Full control

Minimum elongation for precise calibration.

Best grip

Exemplary handling and secure fastening.

Dyneema® fibre from bio-circular feedstocks

Nominal diameter

5.00 mm
