RunnerTwin Equipe

Watersports Performance

The fine line: Competition sheet for maximum control, best grip in cleats and longest service life especially for small, fast keel yachts.

Handling

Highest flexibility and best grip for maximum control when releasing by hand.

Lasts longer, lasts stronger

Triple-fibre cover with abrasion-resistant Dyneema®, non-slip Technora® and polyester.

Two-in-one

Strippable core made with Dyneema® SK 78 fibres for weight-optimised high-performance sheets and halyards.

Dyneema® fibre from bio-circular feedstocks

Gleistein

More than Ropes.

Nominal diameter	Construction
4.00 - 10.00 mm	

Dyneema®

Gleistein

More than Ropes.

Technical data

Elongation at 10% of the breaking load: 0.60 %

Nominal diameter [mm]	Weight [kg/100 m]	Spliced break load [kN]	Linear break load [kN]
4.00	1.15	6.50	7.22
5.00	1.30	10.00	11.11
6.00	2.50	14.96	16.62
8.00	4.40	26.20	29.11
10.00	7.30	43.00	47.78
